Linewize Connect

Integrated
Parental Controls

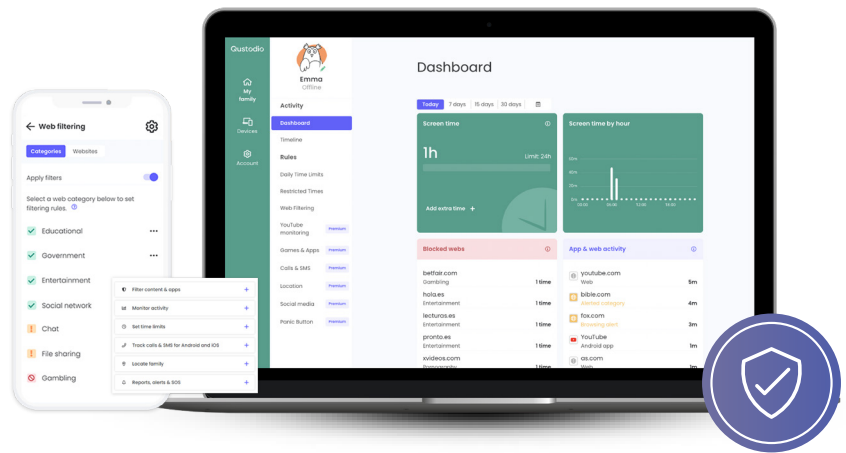

With Linewize Connect's parental controls, parents can manage their child's school device outside of school hours, enabling them to cater to their child's individual needs and enabling you to foster a student-centric approach to online safety.

Parental Controls Highlights

✓ Set time limits

Embrace a community-driven approach to your student's online safety by empowering parents to take an active role in safeguarding their child's school device outside of school hours.

✓ Visibility control

Allows you to determine what information schools and parents can see during different times of the day.

✓ Safety net always in place

Establish a fixed, minimum cyber safety baseline across all your devices, keeping your students safe online when at school and home.

✓ Ultra personalised settings

Allow parents to add their own filtering rules, alerts, reports, and more to support their own children's digital needs and uphold their household rules.

✓ Powered by Qustodio

Helping over 6 million families daily, Qustodio is the world's leading parental control tool, renowned for its simple yet powerful features.

✓ Direct customer support

We provide support directly to your parents, providing them with expert advice and assistance and reducing your IT team's workload.

Every Linewize Connect license includes protection for 1 personal device, letting parents add mobile phones, ipads and more. Taking the next step in supporting their child's cyber safety journey.
